Of the required ring life buoys for an OSV, how many must be equipped with a water light?

2

See REF312

What is the minimum required number of ring life buoys on an OSV certified for ocean service?

8

See REF312

The rescue boat on an OSV shall carry a tow line strong enough to tow the vessel's largest loaded liferaft at a speed of at least _____.

2 knot

See REF313

The Emergency Position Indicating Radio beacon on an OSV vessel must be stowed _____.

so that it will float free if the vessel sinks

See REF112

Which type EPIRB must each ocean-going OSV carry?

Category I

See REF112

Regulations require that OSV's under 100 GT must have a steering system that is capable of moving the rudder

_____.

from 35° on one side to 30° on the other side, in no more than 28 seconds, while making maximum headway

See REF314

Each OSV must carry _____.

at least one life buoy on each side of the vessel fitted with a buoyant life line

at least 12 rocket parachute flares

one category I 406 Mhz satellite EPIRB

All of the above.

Limit switches are located on the survival craft winch systems for OSVs to _____.

stop the winch just before the survival craft reaches final stowage position

See REF306

The instructions for rescue boats and liferafts on an OSV must be approved by the _____.

Coast Guard

The light on a personal flotation device on an OSV must be replaced _____.

when it is no longer serviceable

See REF307

For an OSV not on an international voyage, an approved substitute for an impulse projected type line throwing appliance is a _____.

shoulder type line throwing gun

The person-in-charge shall insure that each rescue boat on an OSV is lowered to the water, launched and operated at least once every _____.

three months

See REF308

Each EPIRB required on an OSV shall be tested using the integrated test circuit and output indicator every _____.

month

The Master or person-in-charge of an OSV shall insure that each deck from which rescue boats are launched is

_____.
kept clear of any obstructions that would interfere with launching

See REF308

The immersion suit requirements for OSVs apply to units operating in the Atlantic Ocean _____.

above 32 degrees North and below 32 degrees South

See REF283

On an OSV, how many ring buoys are required to have a buoyant line attached?

One ring life buoy on each side of the OSV

See REF309

Each buoyant work vest on an OSV must be _____.

Coast Guard Approved

On an OSV, when may a work vest be substituted for a required life jacket?

At no time

See REF309

Each personal flotation device light on an OSV that has a non-replacement power source must be replaced _____.

on or before the expiration date of the power source

See REF307

The rescue boat on an OSV is not required to carry a _____.

fishing kit

See REF310

The normal equipment of every rescue boat shall include _____.

compass

See REF311

The normal equipment of every rescue boat shall include _____.

one 50 meter line

one first aid kit

buoyant oars

All of the above.

See REF311
